5. [REDACTED] LIAISON I called Bruce Wood, on the staff of Representative John N. Erlenborn (R., Ill.), and discussed Mr. Erlenborn's letters to the Agency dated 24 May 1978 requesting data on CIARDS and the VIP program. Mr. Wood said that the inquiries were sent out routinely. He accepted the exclusive jurisdiction by the House Permanent Select Committee on Intelligence and said that we need not provide the data requested. He asked that a letter confirming our conversation be sent. I had earlier talked to Russ Mueller, on the staff of the House Education and Labor Subcommittee on Labor Standards. He explained that the letters were a personal inquiry by Mr. Erlenborn without Subcommittee interest and referred me to Mr. Wood.

7. [REDACTED] LIAISON Mike Glennon, Legal Counsel, Senate Foreign Relations Committee, called concerning the Agency's negative response to the Subcommittee's request for 88 names with no biographic data to be checked through our files in connection with the Subcommittee's investigation of activities of Foreign Intelligence services in the United States. Glennon said he was getting biographic data but asked if any of the names that were not common could be processed. I said no since we still would not know if the individual in our files is identical to the individual of Subcommittee interest. Glennon accepted the explanation and said he would continue to compile any identifying information available. I informed [REDACTED] O/SA/DO/C
of the call. 25X1
